

Justin Garter

Cincinnati, Ohio • garterjn@outlook.com • 513.900.0056 • linkedin.com/in/justin-garter • justingarter.com

Builds and secures network infrastructure: architecture, segmentation, system hardening, and automation, fully documented. Focused on infrastructure security in OT and regulated environments.

COMPUTER & TECHNICAL SKILLS

Networking: Physical and logical segmentation, zero trust, ACLs, OT networking, VLANs, VPN, SD-WAN, DNS, DHCP
Network & Security Platforms: FortiGate, Sophos XG, UniFi, Cisco Meraki, SentinelOne, Tailscale, Wireshark, nmap
Servers & Infrastructure: Windows Server, Linux, virtualization, Active Directory, AD CS/PKI, SQL Server, Docker
Cloud & Business Systems: Microsoft 365 GCC, Entra ID, Intune, Azure, Epicor ERP, Syteline ERP, Power Platform
Security & Compliance: NIST SP 800-171, CMMC Level 2, DFARS, ITAR, MFA, penetration test remediation, SSP/POA&M
Scripting & Automation: Python, PowerShell, Bash, Java, Git; AI-augmented work across the stack, on approved tooling

EDUCATION

University of Cincinnati, Cincinnati, Ohio

Anticipated Graduation: May 2027

Master of Science: Information Technology

IT Accelerated Program

Bachelor of Science: Information Technology | Concentration: Networking/Systems

University Honors Program

Bachelor of Science: Cybersecurity

GPA: 4.0

PROFESSIONAL WORK EXPERIENCE

IT Infrastructure Co-op

June 2026 - Present

Maverick Molding Company, Blue Ash, Ohio | Aerospace precision manufacturing, two sites, 200 users

- Documented the current network, analyzed gaps, and designed and implemented the segmentation redesign
- Ran network hardware procurement from requirements definition through vendor evaluation and award
- Rebuilt production data collection as a hardened event-driven relay with filtering and transformation
- Designed, built, and documented an internal certificate authority, retiring self-signed certificates
- Supported CMMC Level 2 readiness, closing assigned requirements and documenting NIST SP 800-171 gaps
- Modernized identity and endpoint management, deploying passwordless authentication through Intune
- Owned internal penetration test remediation, verifying closure of every assigned finding before retest

IS Infrastructure Intern

September 2025 - December 2025

Shepherd Color Company, West Chester, Ohio | Specialty pigment manufacturing, four sites, 500 users

- Supported SD-WAN cutover planning, testing, and deployment across four sites
- Delivered cybersecurity awareness presentations and internal communications to cross-functional teams
- Led Tier 1 helpdesk operations, resolving 200+ hardware/software tickets with a 100% satisfaction rate

IT Co-op

January 2025 - August 2025

Fecon LLC, Lebanon, Ohio | Forestry equipment manufacturing, four sites, 300 users

- Diagrammed the current network, producing physical and logical documentation for both sites
- Proposed a target network architecture based on the current-state assessment
- Developed and deployed automated workflows to streamline company-wide purchasing requisition approvals

TECHNICAL PROJECTS

Self-Hosted Personal Portfolio, justingarter.com

July 2026 - Present

- Self-hosted a portfolio site on a Raspberry Pi in an isolated network segment, with automatic HTTPS and DDNS

Network Design Team, Business Professionals of America

October 2022 - April 2023

- Designed a multi-million-dollar enterprise stadium network with a 4-person team, placing 2nd nationally
